OSHWA Member Meeting 2026!
October 28th 10am PT

Welcome to the meeting members!
Intro to Alicia, Sid, and Nadya

OSHWA finances!
We have had several grants, some US public funding (NSF) and some US private funding (Sloan).
We do not currently have any grants, but we applied for so many! It has been challenging.
Funding is a major concern for sustainability going forward.

Prev Summit!
The previous summit went so well despite several challenges with logistics! Shoutout to the local team for being great.
Community events continue to occur, including open hardware month, monthly open source hardware livestream, show and tells, etc.

The NSF Healthware work has concluded!

Next summit!
In 2027 in Barcelona May 7 and 8! Planning active. Looking for sponsors.

Q&A!

Members asking about if open healthware summit and summit might merge. We're not sure!

How's the board? Voting is happening!! New board members will be joining soon.
